EXECUTIVE SUMMARY

Results driven recent graduate with a strong interest in data analysis and practical skills in Python, Tableau and SQL. Demonstrated ability to clean, analyse, and visualize data to drive strategic business decisions. Strong communicator with a passion for translating complex data into actionable insights. Eager to learn to work with real-world data to generate insights and support decision making.

SKILLS

- **Languages & Libraries:** Python, SQL, Pandas, Numpy
- **Tools:** Excel, MySQL, Tableau (Public)
- **Core Concepts:** Machine Learning Foundations(supervised & unsupervised), Data Analysis and Visualization
- **Soft Skills:** Eagerness to learn, adaptability, attention to detail, problem-solving, strong collaboration skills

EXPERIENCE AND PROJECTS

Data Science Intern - CodSoft
Oct 2024 - Nov 2024

- Completed a project based internship with hands-on application of machine learning and analytics.
- Developed machine learning models with over 90+ model accuracy using scikit-learn.
- Applied feature engineering, scaling, and model evaluation to boost predictive performance.
- Delivered clean, well-documented notebooks demonstrating model results and impacts.

EV Sales Data Analysis - Project

- Translated client's business needs into effective visual insights and KPIs to support regional strategy.
- Designed dynamic charts and filters to explore vehicle adoption patterns by region, brand, and time.
- Delivered a clean, user-friendly dashboard using Tableau enabling quick, data-driven decisions.

EDUCATION

Bachelor of Science in Data Science
Islamiah College (Autonomous), Vaniyambadi
CGPA: 8.5 | Jun 2022 - May 2025

CERTIFICATES

- **Tata Group - Data visualisation** job simulation on Forage
- **Deloitte – Data Analytics** job simulation on Forage
- **Effective Data Analytics using AI** one day workshop
